SUMMARY

Experienced in Python, web frameworks (FastAPI, Flask, Django), and MySQL, with strong problem-solving and communication skills. Proficient in developing efficient solutions independently and collaboratively.

TECHNICAL SKILLS

Technical Skills:

- **Programming Languages:** Python, SQL, HTML, CSS
- **Frameworks & Libraries:** Django, Flask
- **Tools & Technologies:** Git, MySQL, RESTful APIs

Additional Skills:

Analytical Skills:

Skilled in gathering, interpreting, and visualizing data for insights and data-driven decisions.
Demonstrated strong problem-solving abilities by efficiently resolving technical issues.

PROJECTS

Smart Inventory Management System

- Implemented secure Django authentication, cutting unauthorized access by 40%.
- Automated low-stock and expiry alerts, improving inventory efficiency by 20%.
- Enabled detailed reporting, accelerating decision-making by 35%.
- Optimized data storage with MySQL, reducing retrieval times by 50%.
- Developed RESTful APIs for seamless third-party integration, boosting scalability by 40%.
- Designed a responsive UI with HTML, CSS, and JavaScript, enhancing user satisfaction by 30%

Python Developer Accenture

Feb 2022– Dec 2023
Noida, Uttar Pradesh

- Developed scalable Python applications, improving system performance by 30%.
- Automated workflows, increasing efficiency by 40%.
- Built web applications with Django and Flask, enhancing user engagement by 20%.
- Integrated third-party APIs, boosting client satisfaction by 18%.
- Improved data processing speed by 35% using Pandas and NumPy.
- Maintained Python codebases, reducing downtime by 20%.
- Reduced defects by 25% with comprehensive unit testing for stable applications.

Python Intern Idemia

July 2021 – Oct 2021
Noida, Uttar Pradesh

- Improved issue prioritization and resolution speed by 20% through effective error reporting.
- Managed software process documentation, reducing audit confusion by 40%.

EDUCATION

Btech in Computer Science

Aug 2017 – May 2021
